

BDAC Membership

Memorandum

Date: October 16, 1997
To: CALFED Policy Group
From: Lester A. Snow
Executive Director
Subject: Replacement BDAC Members

Summary

Attached are short biographies of three suggested replacement appointments to the Bay-Delta Advisory Council (BDAC). Byron Buck would replace Mary Selkirk; Martha Davis would replace Marcia Brockbank; and Thomas Decker would replace Tom Maddock.

Marcia Brockbank and Tom Maddock have resigned due to concerns about potential conflicts of interest arising from future CALFED-funded restoration activities.

Martha Davis would be a strong replacement for Ms. Brockbank. She brings an important environmental perspective along with many years of experience in bringing the Mono Lake case to a mutually satisfying and successful conclusion.

Thomas Decker would provide BDAC with the crucial perspective of a businessperson from Southern California, whose community of interest is committed to solving California's water management problems.

Mary Selkirk has resigned to join the CALFED staff as a consultant. One of her principal responsibilities will be coordination of BDAC. As her replacement, Byron Buck brings the perspective of California's largest urban water agencies and a strong problem-solving approach to the issues currently facing CALFED and BDAC.
